Subject: Lucent Patent Application for "Molecular Detection Using an Optical Waveguide Fixed to a Cantilever"

Dear Alex and Dustin,

Thank you for your help in preparing your patent application. The final version of the application is attached to this message. Also attached are two other documents which we need executed prior to formally filing the application.

One is a Declaration and Power of attorney, in which you state your belief that you are a joint inventor of the technology claimed in the application and appoint Lucent and my firm as the attorneys who will handle the application.

The other is an Assignment and Agreement in which you grant to Lucent the rights to the patent application.

Please review, sign, and return to me by fax the Declaration and Assignment documents at your earliest convenience. We cannot file the application until we have the signed documents.

Thanks for your continuing help!

Very truly yours,

Gary

FW: Lucent Patent Application for "Molecular Detection Using an Optical Waveguide Fixed to a Cantilever"

Dear Dustin,

Please let me know if you have had a chance yet to review and sign the Assignment and Agreement attached to the message below. Please don't hesitate to contact me if you have any questions. For today only (2 July 2003), I can be reached directly at 305-960-2271. You can always leave a message using the contact information below.

Very truly yours,

Gary

**Re: U.S. Patent Application of Eugene Rosenthal et al for "Molecular Detection
Using an Optical Waveguide Fixed to a Cantilever"
Lucent Ref. No. Carr 7-4
Duane Morris Ref. No. Y0242-00289**

Dear Ms. Curry:

This will confirm that the above-referenced U.S. patent application was forwarded to the U.S. Patent and Trademark Office using the Express Mail filing procedure on July 23, 2003. Formal drawings were filed with the application. A hard copy of the application package, as filed, is enclosed for your records. We neglected to send a copy of the return postcard to the PTO with your return address. We will forward a copy of the time-stamped postcard to you upon receipt. Barring unforeseen circumstances, Lucent will receive July 23, 2003, as the filing date of the application.

Our invoice for preparation and filing of the application will also follow.

We shall continue to keep you advised of all developments in connection with this application. As always, please do not hesitate to contact me if I can better explain any issue raised in this letter or the corresponding documents or if I can be of assistance in any other way.

Very truly yours,

Gary D. Colby

Subject: RE: Lucent Patent Application for "Molecular Detection Using an Optical Waveguide Fixed to a Cantilever"

Hi Dustin,

I sit in an office in Philadelphia, and don't get out to Murray Hill. If you wish, I could forward the documents to someone at Murray Hill and have them forward to me after you've signed them. If at all possible, we should have a Notary witness your signature of the Assignment. I don't know if there is a Notary at Murray Hill, but would assume there is.

Please let me know if you want me to forward any of these documents to Lucent at Murray Hill (or forward them yourself, if you wish).

Thanks for your help.

I sit in an office in Philadelphia, and don't get out to Murray Hill. If you wish, I could forward the documents to someone at Murray Hill and have them forward to me after you've signed them. If at all possible, we should have a Notary witness your signature of the Assignment. I don't know if there is a Notary at Murray Hill, but would assume there is.

Please let me know if you want me to forward any of these documents to Lucent at Murray Hill (or forward them yourself, if you wish).

Thanks for your help.

Gary

Subject: RE: Lucent Patent Application for "Molecular Detection Using an Optical Waveguide Fixed to a Cantilever"

Gary,

I will be at Lucent in Murray Hill this coming monday afternoon. Is there a place I can drop in to sign the documents?

Dustin

Subject: RE: Lucent Patent Application for "Molecular Detection Using an Optical Waveguide Fixed to a Cantilever"

Dear Dustin,

This application has been filed in the US Patent Office. We will soon be required to forward executed copies of the Declaration and Assignment documents referenced below. I have attached copies of these documents to this message. Please forward the executed documents to me at your earliest convenience.

Please do not hesitate to contact me if I can better explain any issue raised in this message or the corresponding documents, or if I can be of assistance in any other way.

Very truly yours,

Gary

Subject: Lucent Patent Application for "Molecular Detection Using an Optical Waveguide Fixed to a Cantilever"

Dear Alex and Dustin,

Thank you for your help in preparing your patent application. The final version of the application is attached to this message. Also attached are two other documents which we need executed prior to formally filing the application.

One is a Declaration and Power of attorney, in which you state your belief that you are a joint inventor of the technology claimed in the application and appoint Lucent and my firm as

the attorneys who will handle the application.

The other is an Assignment and Agreement in which you grant to Lucent the rights to the patent application.

Please review, sign, and return to me by fax the Declaration and Assignment documents at your earliest convenience. We cannot file the application until we have the signed documents.

Thanks for your continuing help!

Very truly yours,

Gary
